AMA
ALLIANCE

Connecting Physician Families for Healthier Communities

Greetings and thank you for your interest in our program. The American Medical Association Alliance (AMAA) together with the National Parent Teacher Association (PTA) are pleased to present to you America's Opioid Epidemic, Know the Facts. This program has been designed specifically with middle school parents in mind. It was developed to educate and make parents aware of the danger's opioids can pose.

Contained inside this package are a 12-minute prerecorded webinar, a power point presentation containing the slides used within the webinar, talking points for use with the power point, a fact sheet highlighting important points from the presentation, frequently asked questions summary from other presentations and a simple survey.

Prior to presenting this program please read over the survey questions. The AMAA is asking for your help and cooperation in filling out the survey. In exchange for offering you this downloadable package we would ask that you complete the survey, upon completion of your program. The survey results will help us determine if additions or changes are necessary as we move forward creating new materials to help combat the opioid epidemic.

We encourage you to visit our website www.amaalliance.org to view our complimentary opioid materials available for purchase. We are so pleased YOU have decided to partner with the AMAA and the PTA to help combat opioid misuse and abuse. Please contact us at amaa-pta@amaalliance.org should you have any questions or need additional support or information. Thank you for helping us share this important information.
